

OFFICIAL NATIONAL

Green Party

Platform

As adopted at the National Nominating Convention
Denver, Colorado – June 24, 2000

A CALL TO ACTION

The GREEN PLATFORM is an evolving document, a living work-in-progress that expresses our commitment to creating meaningful and enduring change in the political process. Our Party's first priority is to value-based politics, in contrast to a system extolling exploitation, consumption, and non-sustainable competition.

We believe in an alternative, independent politics and active, responsible government.

We believe in empowering citizens and communities.

We offer hope and a call to action. In this platform we make our case to change the way our government operates – to change the quality of our everyday lives – to build a vision that brings new and lasting opportunities.

PLATFORM PREAMBLE

As the new century dawns, we look back with somber reflection at how we have been as a people and as a nation. Realizing our actions will be judged by future generations, we ask how with foresight and wisdom, we can renew the best of our past, calling forth a spirit of change and participation that speaks for a free and democratic society.

We submit a bold vision of our future, a PLATFORM on which we stand:

- An ethic of KEY VALUES leading to a POLITICS OF ACTION.
- A hopeful, challenging plan for A PROSPERING, SUSTAINABLE ECONOMY.
- A call to CREATE and CONSERVE a rich, DIVERSE environment characterized by a sense of COMMUNITY.

What we are proposing is a vision of our common good that goes beyond special interests and the business of politics.

What we are proposing is an INDEPENDENT POLITICS, a democratic vision that empowers and reaches beyond background and political loyalty to bring together our combined strengths as a people.

We, the GREEN PARTY, see our political and economic progress, and our individual lives, within the context of an evolving, challenging world.

As in nature, where adaptation and diversity provide key strategies of survival, a successful political strategy is one that is diverse, adaptable to changing needs, and strong and resilient in its core values:

- **DEMOCRACY**, practiced most effectively at the grassroots level and in local communities.
- **SOCIAL JUSTICE** and **EQUAL OPPORTUNITY**, emphasizing personal and social responsibility, accountability, and non-violence.
- **ENVIRONMENTAL** and **ECONOMIC SUSTAINABILITY**, balancing the interests of market- and value-driven business, of the community and land, of living and future generations.

Looking to the future with hope and optimism, we believe we can truly change history – that together we can make a real difference in the quality of our lives and environment. Our common destiny brings us together across our nation and around the globe. It is for us to choose how we will be remembered. It is for us to choose the future we are creating today.

GREEN KEY VALUES

1. GRASSROOTS DEMOCRACY

Every human being deserves a say in the decisions that affect their lives and not be subject to the will of another.

Therefore, we will work to increase public participation at every level of government and to ensure that our public representatives are fully accountable to the people who elect them.

We will also work to create new types of political organizations which expand the process of participatory democracy by directly including citizens in the decision-making process.

2. SOCIAL JUSTICE AND EQUAL OPPORTUNITY

All persons should have the rights and opportunity to benefit equally from the resources afforded us by society and the environment. We must consciously confront in ourselves, our organizations, and society at large, barriers such as racism and class oppression, sexism and homophobia, ageism and disability, which act to deny fair treatment and equal justice under the law.

3. ECOLOGICAL WISDOM

Human societies must operate with the understanding that we are part of nature, not separate from nature.

We must maintain an ecological balance and live within the ecological and resource limits of our communities and our planet. We support a sustainable society which utilizes resources in such a way that future generations will benefit and not suffer from the practices of our generation. To this end we must practice agriculture which replenishes the soil; move to an energy efficient economy; and live in ways that respect the integrity of natural systems.

4. NONVIOLENCE

It is essential that we develop effective alternatives to society's current patterns of violence. We will work to demilitarize, and eliminate weapons of mass destruction, without being naive about the intentions of other governments.

We recognize the need for self-defense and the defense of others who are in helpless situations. We promote non-violent methods to oppose practices and policies with which we disagree, and will guide our actions toward lasting personal, community and global peace.

5. DECENTRALIZATION

Centralization of wealth and power contributes to social and economic injustice, environmental destruction, and militarization. Therefore, we support a restructuring of social, political and economic institutions away from a system which is controlled by and mostly benefits the powerful few, to a democratic, less bureaucratic system. Decision-making should, as much as possible, remain at the individual and local level, while assuring that civil rights are protected for all citizens.

6. COMMUNITY-BASED ECONOMICS AND ECONOMIC JUSTICE

We recognize it is essential to create a vibrant and sustainable economic system, one that can create jobs and provide a decent standard of living for all people while maintaining a healthy ecological balance. A successful economic system will offer meaningful work with dignity, while paying a “living wage” which reflects the real value of a person’s work.

Local communities must look to economic development that assures protection of the environment and workers’ rights; broad citizen participation in planning; and enhancement of our “quality of life.” We support independently owned and operated companies which are socially responsible, as well as co-operatives and

public enterprises that distribute resources and control to more people through democratic participation.

7. FEMINISM AND GENDER EQUITY

We have inherited a social system based on male domination of politics and economics. We call for the replacement of the cultural ethics of domination and control with more cooperative ways of interacting that respect differences of opinion and gender. Human values such as equity between the sexes, interpersonal responsibility, and honesty must be developed with moral conscience. We should remember that the process that determines our decisions and actions is just as important as achieving the outcome we want.

8. RESPECT FOR DIVERSITY

We believe it is important to value cultural, ethnic, racial, sexual, religious and spiritual diversity, and to promote the development of respectful relationships across these lines.

We believe that the many diverse elements of society should be reflected in our organizations and decision-making bodies, and we support the leadership of people who have been traditionally closed out of leadership roles. We acknowledge and encourage respect for other life forms than our own and the preservation of biodiversity.

9. PERSONAL AND GLOBAL RESPONSIBILITY

We encourage individuals to act to improve their personal well-being and, at the same time, to enhance ecological

balance and social harmony. We seek to join with people and organizations around the world to foster peace, economic justice, and the health of the planet.

10. FUTURE FOCUS AND SUSTAINABILITY

Our actions and policies should be motivated by long-term goals. We seek to protect valuable natural resources, safely disposing of or “unmaking” all waste we create, while developing a sustainable economics that does not depend on continual expansion for survival. We must counterbalance the drive for short-term profits by assuring that economic development, new technologies, and fiscal policies are responsible to future generations who will inherit the results of our actions.

QUALITY OF LIFE

Our overall goal is not merely to survive, but to share lives that are truly worth living. We believe the quality of our individual lives is enriched by the quality of all of our lives. We encourage everyone to see the dignity and intrinsic worth in all of life, and to take the time to understand and appreciate themselves, their community and the magnificent beauty of this world.
